

Dornoch Primary School 27 September 2006

In September 2006 the P5 class and their teacher Mrs Lindsey invited us to help them with their topic of **vandalism** and the possible effects it might have on their community. During Toni's visit the children did the Beach Guardians "Quiz" on beach litter and found out what is needed to carry out a beach clean. This involved an investigation by all the children of what is in a beach Guardians Beach Clean Box. The children clearly enjoyed handling all the equipment - which includes litter pickers, gloves, fluorescent jackets, scales, tape measures, canes, buckets, worksheets and LOTS more. and discussing what role each item had to play. Beach Guardians tee-shirts were presented to the "best" quiz answers. The class now also has a CD about Beach Litter so they could do some more work on this topic at another time.

The school also invited us to attend the schools Eco-group meeting which had been formed recently to look at how the school might go about getting their Bronze Eco-school award. We discussed the likelihood of a beach clean helping towards this.
