

Scottish Natural Heritage
Sharing Good Practice

Improving our understanding of coastal climate change
1 September 2009, St. Andrews

Purpose:

What does climate change mean for decision makers at the coast?

This event will bring together several experts to summarise latest research, future scenarios and policies to help improve our understanding of climate change impacts on the coast.

Who is it for?

The day is aimed at local authority engineers, planners, MoD staff, golf course managers and Scottish Coastal Forum officers.

Scottish Natural Heritage

Sharing Good Practice

Content:

You'll get an update on and discuss:

- how climate change is affecting the coast
- UK Climate Impacts Programme 2009 scenarios
- coastal flooding and coastal erosion research
- the Flood Risk Management Bill
- and more, including a field trip to the Eden Estuary to see the beach-feed coastal protection works.

Times:

The workshop will start at 10am (coffee and registration at 9.30am) and finish at 4pm.

Venue:

Scores Hotel, St. Andrews, Fife KY16 9BB

Organisers:

Scottish Natural Heritage in association with University of Glasgow, SEPA, SCAPE and Dundee University.

Cost:

£55 – lunch & refreshments will be provided

Booking:

To book a place, please complete the booking form and return it by Friday 21 August to Suzanne.kilbane@snh.gov.uk
